

JUMP N' STOMP - GAME PITCH DOCUMENT

Concept

- Fast paced 1 v 1 game, where the player will play as a bomb and aim to jump at the opponents' head to activate a button that detonates them.
- After every round, the environment switches and the player will have to quickly adapt to new traps and obstacles.
- Win 5 rounds to win the game!

Logline

A fun and fast paced 1v1 jump and run game, where you have to jump on your opponents' head before he jumps on yours. Every map has its own twist, that can benefit or harm you, so use your environment wisely!

Core Gameplay Mechanics

- Consists of Running, Jumping and Fast Falling.

What makes it interesting

- fast paced, hectic and chaotic player experience -> everything can happen at any time
- Best of 9 and a new map every round, so competitiveness is guaranteed
- Plethora of maps, each with their own twist and gimmicks, that the player has to adapt quickly to (e.g. saws, ice, portals, switched gravity, bunnyhop etc.)

Game Art Concept

- Simple geometrical shapes, vibrant colors and high contrasts, to distinct players from background

Moodboard / Inspiration

Shipping
